

Proworks, Inc
Program Abuse Prevention Plan
Red Rooster
135 3rd Street
Dassel, MN 55325

POPULATION ASSESSMENT:

1. Age range of persons the program plans to serve: *This site provides services to persons between the ages of 26 and 71.*
2. What specific measures has the program taken to minimize the risk of abuse to people as related to the age of people receiving services?

Staff are on the premises at all times during programming hours. Persons Served at this site have a written Individual Abuse Prevention Plan in place that identifies the individual risks. Staff are trained annually in Maltreatment of Vulnerable Adults Act. Staff having knowledge of an incident of suspected maltreatment will make a report either internally or externally, following all procedures outlined in ProWorks Vulnerable Adult Policy.

3. Gender of persons the program plans to serve: *This site provides services to 16 females and 11 males.*
4. What specific measures has the program taken to minimize the risk of abuse to people as related to the gender of people receiving services?

Staff are on the premises at all times during programming hours. This has two single unisex restrooms. This site has only female staff available to help supervise the restroom areas to ensure privacy when necessary. Staff provide assistance and verbal reminders on restroom etiquette to individuals on an as needed basis. Staff are trained annually in Maltreatment of Vulnerable Adults Act. Staff having knowledge of an incident of suspected maltreatment will make a report either internally or externally, following all procedures outlined in ProWorks Vulnerable Adult Policy.

5. Describe the range of mental functioning of persons the program plans to serve:

Person's served at this site have a wide range of cognitive functioning, from mild to profound development disabilities with limited verbal to non-verbal skills and/or have an underlying diagnosis related to mental illness (e.g. adult attention deficit, anxiety, bipolar and depressive disorders).

6. What specific measure has the program take to minimize the risk of abuse to people as related to the mental functioning of people receiving services?

Staff are on the premises at all times during programming hours. Staff are trained on each person's Community Supportive Service Plan (CSSP), Self-Management Assessment, and Individual Abuse Prevention Plan (IAPP) that is assigned to their area of supervision. These support plans provide information on each person's strengths and vulnerabilities to best meet their needs. Staff will receive additional training on mental health issues, verbal de-escalation, and person-centered planning on an as needed basis.

7. Describe the range of physical and emotional health of persons the program plans to serve:

Persons served at this site are ambulatory. This site also has individuals with seizure disorders as well as emotional health concerns related to an individual's mental health (e.g. adult attention deficit, anxiety, bipolar and depressive disorders).

8. What specific measure has the program take to minimize the risk of abuse to people as related to the physical and emotional health of people receiving services served?

Staff are on the premises at all times during programming hours. Staff are trained on each person's Community Supportive Service Plan (CSSP), Self-Management Assessment, and Individual Abuse Prevention Plan (IAPP) that is assigned to their area of supervision. These support plans provide information on each person's strengths and vulnerabilities to best meet their physical and emotional needs. Staff training will be provided to staff who work directly with individuals with specialized needs (e.g. adaptive equipment, G-tubes, lifts, seizures, physical and/or occupational therapies). Additional staff training will be provided on an individual basis as areas of needs and/or vulnerabilities arise. Staff are trained annually in Maltreatment of Vulnerable Adults Act. Staff having knowledge of an incident of suspected maltreatment will make a report either internally or externally, following all procedures outlined in ProWorks Vulnerable Adult Policy.

9. Describe the range of adaptive/maladaptive behavior(s) of persons the program plans to serve:

Person's served at this site may display interfering behaviors that could present themselves in the form of oppositional defiance, physical and/or verbal aggression, property damage, self-injurious and/or other stereotypical behaviors primarily related to autism.

10. What specific measures has the program taken to minimize the risk of abuse to people as related to the adaptive/maladaptive behavior(s) of the people receiving services served?

Staff are on the premises at all times during programming hours. Staff are trained on each person's Community Supportive Service Plan (CSSP), Self-Management Assessment, and Individual Abuse Prevention Plan (IAPP) that is assigned to their area of supervision. These plans provide the information needed to best meet the individuals needs through positive supports. Staff will guide persons served away from interfering behaviors to a safe area that pose potential harm. Staff are trained annually in Maltreatment of Vulnerable Adults Act. Staff having knowledge of an incident of suspected maltreatment will make a report either internally or externally, following all procedures outlined in ProWorks Vulnerable Adult Policy.

11. Describe the need for specialized programs of care for persons the program plans to serve:

Persons served at this site may not be able to independently defend themselves and/or remove themselves from an abusive or potentially abusive situations. Persons at this site may need assistance with their daily living and/or job related skills, as well as, assistance in communication and mobility.

12. What specific measures has the program taken to minimize the risk of abuse to people as related to the need for specialized programs of care for people receiving services?

Staff are on the premises at all times during programming hours. Staff are trained on each person's Community Supportive Service Plan (CSSP), Self-Management Assessment, and Individual Abuse Prevention Plan (IAPP) that is assigned to their area of supervision. These plans provide the information needed to best meet the individuals needs through positive supports. Staff are trained annually in Maltreatment of Vulnerable Adults Act. Staff having knowledge of an incident of suspected maltreatment will make a report either internally or externally, following all procedures outlined in ProWorks Vulnerable Adult Policy.

13. Describe the need for specific staff training to meet individual service needs:

Staff at this site are trained according to the 245D requirements upon hire and annually thereafter. Staff will be trained in the area's that are specified in both the individuals Self-Management Assessment, as well as their Individual Abuse Prevention Plan (e.g. allergies, dietary requirements, medication administration, mental health concerns, seizure protocol's).

14. What specific measures has the program taken to minimize the risk of abuse to people as related to the need for specific staff training designed to meet individual service needs?

Staff are on the premises at all times during programming hours. Staff are trained on each person's Community Supportive Service Plan (CSSP), Self-Management Assessment, and Individual Abuse Prevention Plan (IAPP) that is assigned to their area of supervision. These plans provide the information needed to best meet the individuals needs through positive supports. Staff are trained annually in Maltreatment of Vulnerable Adults Act. Staff having knowledge of an incident of suspected maltreatment will make a report either internally or externally, following all procedures outlined in ProWorks Vulnerable Adult Policy.

15. Describe any knowledge of previous abuse that is relevant to minimizing the risk of abuse to people receiving services:

This Site provides services to persons whom experienced physical/sexual/verbal abuse and whom have self-abuse tendencies.

16. What specific measures has the program taken to minimize the risk of abuse to people as related to the knowledge of previous abuse?

Staff are on the premises at all times during programming hours. An Individual Abuse Prevention Plan (IAPP) is developed and reviewed annually by each individuals' interdisciplinary team. Staff are trained annually in Maltreatment of Vulnerable Adults Act. Staff having knowledge of an incident of suspected maltreatment will make a report either internally or externally, following all procedures outlined in ProWorks Vulnerable Adult Policy.

PHYSICAL PLANT ASSESSMENT:

1. Describe the condition and design of the facility as it relates to safety for the people receiving services:

ProWorks Red Rooster Site is located at 135 Third Street South in Dassel. This site provides day training & habilitation and prevocational services. This is a single-story structure, 60'x100' steel building; originally built, in 1997, as a "storage" site for a nearby business. This building's side walls are 16' high (approximately 20' in the center); we have built a mezzanine "storage" area above the main lobby, lunch room and restroom; the stairs to this area is located by the loading dock – the mezzanine is usually "off-limits" to clients.

2. What specific measures has the program taken to minimize the risk of abuse to people as related to the condition and design of the facility in terms of safety for people receiving services?

The entire facility was designed to be wheelchair accessible and easy for persons with mobility issues. All exits are able to be accessed by wheelchairs. Safety lights are automatically lit during a power failure to assist staff and persons served to the nearest exits. This site has a first aid kit available and an evacuation procedure in place with floor plans posted at key points throughout the building.

The main restrooms are equipped with wall mount grab bars to meet the needs of persons served who require adaptive equipment to assist them with mobility. Persons served who are independent in their toileting skills use the restrooms independently. Staff are available for persons who require assistance and/or supervision for interfering behaviors/medical issues.

3. Describe any areas of the facility that are difficult to supervise:

Staff are not typically assigned to non-program areas, such as restrooms and/or the storage shed.

4. What specific measures has the program taken to minimize the risk of abuse to people as related to the areas of the facility that are difficult to supervise?

Staff are on the premises at all times during programming hours. Staff assist persons served who require assistance in the restroom when their IAPP has identified this need. This site has two observation cameras strategically placed to assist with the areas that may be difficult to supervise. Staff are trained on each person's support plan (e.g. CSSP Addendum, Self-Management Assessment, and Individual Abuse Prevention Plan. These plans provide the information needed to best meet the individuals needs through positive supports.

ENVIRONMENTAL ASSESSMENT:

1. Describe the location of the facility including information about the neighborhood and community in which the facility is located:

ProWorks Red Rooster site is located in Dassel's Industrial Park; there are no "environmental" concerns at this time. American Time is a community business that provides work related services for persons served at this site and is located directly across the street.

2. What specific measures has the program taken to minimize the risk of abuse to people as related to the location of the facility, including factors about the neighborhood and community?

Staff are on the premises at all times during programming hours. Staff are trained on each person's Community Supportive Service Plan (CSSP), Self-Management Assessment, and Individual Abuse Prevention Plan (IAPP) that is assigned to their area of supervision. These plans provide the information needed to best meet the individuals needs through positive supports.

3. Describe the type of grounds and terrain that surround the facility:

ProWorks Red Rooster Site is located in a "commercial" area. The terrain is relatively flat. The front entrance is located on the street side and is handicapped accessible by ramp and/or stairs. The back entrance is also the pick-up and receiving area which requires a clear safe access for the purpose of ease in loading and unloading.

4. What specific measures has the program taken to minimize the risk of abuse to people as related to the type of grounds and terrain that surround the facility?

Staff maintain the walkways to be free from obstacles, ice and debris. Staff are trained on each person's Individual Abuse Prevention Plan (IAPP) that is assigned to their area of supervision. These plans provide the information needed to best meet the individuals needs through positive supports.

5. Describe the type of internal programming provided at the program:

This site includes both work and non-work programs tailored to meet the person served interest, as well as their mental/physical capabilities.

6. What specific measures has the program taken to minimize the risk of abuse to people through the type of internal programming provided at the program?

The potential for abuse and/or harmed is reduced by having suitable level of supervision guided by each person served Individual Abuse Prevention Plan (IAPP). Each person's IAPP is reviewed annually by their Interdisciplinary team. Staff are trained to encourage the highest level of independence for individuals served. Staff are trained in First Aid/CPR and AED use. Staff are trained annually in Maltreatment of Vulnerable Adults Act. Staff having knowledge of an incident of suspected maltreatment will make a report either internally or externally, following all procedures outlined in ProWorks Vulnerable Adult Policy.

7. Describe the program's staffing pattern:

Staff are available at all times during programming hours. Staffing is provided according to the needs addressed in the CSSP Addendum for each person served. A staff to client ratio assessment is performed annually upon the renewal of each person's service agreement to ensure adequate services are being provided.

8. What specific measures has the program taken to minimize the risk of abuse to people through the program's staffing pattern?

Staffing is provided according to the needs addressed in the CSSP Addendum for each person served. Services are staffed to allow adequate supervision of all involved program individuals. This staff ratio provides program efficacy in promoting person-centered services. Staff are trained annually in Maltreatment of Vulnerable Adults Act. Staff having knowledge of an incident of suspected maltreatment will make a report either internally or externally, following all procedures outlined in ProWorks Vulnerable Adult Policy.

EACH PROGRAM MUST ENSURE THAT:

- A. People receiving services are provided with an orientation to the program abuse prevention plan. This orientation must be within 24 hours of admission or within 72 hours for individuals who would benefit from a later orientation.
- B. The license holder's governing body or the governing body's delegated representative shall review the plan at least annually using the assessment factors in the plan and any substantiated maltreatment findings that occurred since the last review period. The governing body or the governing body's delegated representative shall revise the plan, if necessary, to reflect the review results.
- C. A copy of the program abuse prevention plan must be posted in a prominent place in the facility and be available, upon request, to mandated reporters, people receiving services, and legal representatives.
- D. If the assessment indicates that the vulnerable adult does not need specific risk reduction measures in addition to those identified in the program abuse prevention plan, the individual abuse prevention plan must document this determination.
- E. In addition to the program abuse prevention plan, an individual abuse prevention plan must be developed for each new person receiving services. A review of the individual abuse prevention plan must be done as part of the review of the program plan. The persons receiving services must participate in the development of the individual abuse prevention plan to the best of their abilities. All abuse prevention plans must be reviewed at least annually by the interdisciplinary team.
